

JOIN OUR TEAM!

Full-Time TECHNICIAN

Do you have the drive to have a productive, rewarding career with better training, better pay and better benefits? Truck Country has locations in Illinois and Wisconsin with openings for medium and heavy-duty diesel technicians. Whether you are already an expert or just getting started, we have a career path for you.

POSITION RESPONSIBILITIES INCLUDE:

- Preventative maintenance
- Chassis and engine repair
- DOT inspections
- Diagnostics

TRAIN with the best in the industry. As an employee, technicians receive training by Freightliner Certified instructors. We take pride in our small class settings designed to ensure quality one-on-one instruction and hands-on training.

LEARN at our dedicated Training Centers. Our state of the art classrooms and shops are equipped with smartboards, laptops, training engines, Freightliner training aids and more.

GROW your career as a technician! Two training paths are available for technicians.

- Traditional certification; for those who have technical experience.
- Technician Training Program, an entry level program, for newly hired technicians with minimal experience.
