

# We have talent ready to work for you

WorkSmart Network Work Experience Program

Our **Work Experience Program** is a low-risk way for your business to test out a new worker before making a hiring commitment. You get to train the worker the way you want the job done—at no cost to you. And if the worker is a great fit, you can hire them on permanently.

**How does it work?** Simply tell us your workforce needs. We'll recruit and screen appropriate candidates for you. We'll pay for the wages and payroll taxes of the worker(s) for up to 9 weeks. You supervise the worker(s) on the worksite to get them up to speed and get the job done. The final hiring decision is yours.
